

**CHARLES F. AND JOANNE KNIGHT ALZHEIMER'S DISEASE RESEARCH CENTER**  
2014 Tuesday Conference Seminar Schedule  
East Pavilion Auditorium - BJH South, 1st Floor  
12:00 - 1:00 PM

- July 1      **TBA**  
Courtney Sutphen, DBBS Pre-Doctoral Trainee, Holtzman Lab, Washington University
- July 8      **Flexible Patterns of Neuronal Communication with Attention**  
Amy Daitch, PhD, Postdoctoral Fellow, Department of Neurology, Washington University
- July 15     **No Seminar – Alzheimer's Association International Conference**
- July 22     **Serotonin Signaling and Antidepressants Reduce Amyloid-Beta in Mice and Men**  
John Cirrito, PhD, Assistant Professor of Neurology, Washington University
- July 29     **Regional Variations in PiB Binding In Vivo and the Correlation with the Postmortem Amyloid Assessment in Individuals with Autosomal Dominant Alzheimer Disease**  
Aihong Zhou, MD, Knight ADRC International Scholar and Associate Professor, Department of Neurology, Xuan Wu Hospital of the Capital Medical University, Beijing, China
- Aug 5      **Annual Alzheimer's Association International Conference (AAIC) Research Overview**  
Alison Goate, D.Phil, Professor of Genetics in Psychiatry; Brian Gordon, PhD, Research Instructor in Radiology, and David Clifford, MD, Seay Professor of Clinical Neuropharmacology in Neurology, Washington University.
- Aug 12     **Absolute Quantitation of Apolipoprotein E Isoforms in CSF and Brain of Aged Participants**  
Alaina Baker-Nigh, PhD, Postdoctoral Research Associate, Bateman Lab, and  
**Elucidating Tau Kinetics with SILK (Stable Isotope Labeling Kinetics) Method**  
Chihiro Sato, PhD, Staff Scientist, Bateman Lab
- Aug 19     **Effects of Peripheral Administration of an Anti-Tau Antibody in P301S Tau Transgenic Mice**  
Kiran Yanamandra, PhD, Holtzman Lab, Washington University
- Aug 26     **Implications of Prion Phenomena for Diagnosis and Treatment of Neurodegenerative Diseases**  
Marc Diamond, MD, Clayson Professor of Neurology, Washington University
- Sept 2      **A Transdisciplinary Approach to Address Alzheimer's Disease in Missouri**  
Dayana A. Delgado, MPH, Washington University

- Sept 9      **Disclosure of Individual Research Results to Cognitively Normal Research Participants at the Knight ADRC**  
Jonathan Gooblar, MA, Graduate student, Department of Psychology; John C. Morris, MD, MD, Friedman Distinguished Professor of Neurology and Director, Knight ADRC; and Matthew Gabel, PhD, Professor of Political Science, Washington University
- Sept 16      **TBA**  
Samantha Allison, MA, Clinical Psychology Graduate Student, Washington University
- Sept 23      **Diversity & Inclusion 1.0**  
Daniel Blash, PhD, Diversity & Inclusion Leader, Washington University
- Sept 30      **Attentional Control in Semantic Memory Retrieval and AD Biomarkers in Non-Demented Older Adults**  
Andrew J. Aschenbrenner, MA, Balota Lab, Washington University

## **CME Documentation Information:**

**SPONSORED BY:** This activity is being sponsored by Washington University School of Medicine, Continuing Medical Education.

**ACCREDITATION:** Washington University is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

**CREDIT:** Washington University designates this live educational activity for a maximum of 1 *AMA PRA Category 1 Credits™*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

**DISCLOSURE POLICY:** It is the policy of Washington University School of Medicine, Continuing Medical Education, to ensure balance, independence, objectivity and scientific rigor in all its educational activities. All faculty participating in this activity are expected to disclose to the audience any financial interest or other relationship he/she has with the manufacturer(s) of any commercial product(s) discussed in an educational presentation. All physicians' disclosures were reported and are indicated with their presentations. Speakers are also expected to openly disclose inclusion of discussion of any off-label, experimental, or investigational use of drugs or devices in their presentations.

Presentations are expected to be based on evidence that is accepted within the profession of medicine as adequate justification for their indication in the care of patients. All scientific research should conform to the generally accepted standards of experimental design, data collection and analysis.

These presentations are the views and experiences of the presenters. The presenters' views do not represent the policy or position of Washington University School of Medicine. Washington University School of Medicine, Continuing Medical Education is the sponsor for CME credits.
