- Feb 10      **Factors Influencing LP Feasibility in Alzheimer Research**  
Krista L. Moulder, PhD, Assistant Professor of Neurology and Associate Director, Knight Alzheimer Disease  
Research Center, Washington University
- Feb 17      **TBA**  
Laura Piccio, MD, Assistant Professor of Neurology, Washington University
- Feb 24      **PET Imaging In Animal Models of Neurodegenerative Diseases**  
Jonathan McConathy, MD, PhD, Assistant Professor of Radiology, Washington University
- March 3      **Modulating the Amyloid-beta Diurnal Pattern**  
Brendan P. Lucey, MD, Assistant Professor of Neurology, Washington University
- March 10      **Expansions in C9ORF72: Current Understanding and Future Directions**  
Matthew Harms, MD, Assistant Professor of Neurology, Washington University
- March 17      **Cognitive screening in patients after stroke**  
Neil Thomas, MD, MSc, Neurology Resident, University of Ottawa, Canada
- March 24      **The Impact of TREM2 in Microglia Biology and Neurodegenerative Diseases**  
Marco Colonna, MD, Professor of Pathology and Immunology, Washington University
- March 31      **Understanding the Interaction of Tau Pathology and Sleep Using a Tauopathy Mouse Model**  
Jerrah Holth, PhD, Holtzman Lab, Washington University

## **CME Documentation Information:**

**SPONSORED BY:** This activity is being sponsored by Washington University School of Medicine, Continuing Medical Education.

**ACCREDITATION:** Washington University is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

**CREDIT:** Washington University designates this live educational activity for a maximum of 1 *AMA PRA Category 1 Credits<sup>TM</sup>*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

**DISCLOSURE POLICY:** It is the policy of Washington University School of Medicine, Continuing Medical Education, to ensure balance, independence, objectivity and scientific rigor in all its educational activities. All faculty participating in this activity are expected to disclose to the audience any financial interest or other relationship he/she has with the manufacturer(s) of any commercial product(s) discussed in an educational presentation. All physicians' disclosures were reported and are indicated with their presentations. Speakers are also expected to openly disclose inclusion of discussion of any off-label, experimental, or investigational use of drugs or devices in their presentations.

Presentations are expected to be based on evidence that is accepted within the profession of medicine as adequate justification for their indication in the care of patients. All scientific research should conform to the generally accepted standards of experimental design, data collection and analysis.

These presentations are the views and experiences of the presenters. The presenters' views do not represent the policy or position of Washington University School of Medicine. Washington University School of Medicine, Continuing Medical Education is the sponsor for CME credits.
