1.5 Day Course for Rural Clinicians in MO and IL

The 2024 Clinician Partners Program (CPP) is a 1.5 day course specializing in dementia diagnosis and care. Sessions are presented by world-class dementia researchers and Washington University School of Medicine clinical faculty. This free CME program is offered annually and space is limited. Learn more at our CPP website using the link above.

CME

Earn 12 free AMA, IPCE, or ANCC Continuing Medical Education (CME) credits

Lodging

Hotel stay* and meals provided during the 1.5-day program

Travel

Round trip travel to St. Louis* and paid parking provided

Who Should Attend?

This free program is intended for clinicians (MD, DO, PA, FNP, advanced practice nurses) who primarily treat older adult patients in Missouri and St. Louis-adjacent Illinois. We would especially like to reach clinicians who work with rural, underserved, and/or traditionally marginalized people.

March 28-29

Saint Louis, Missouri
