

# March 13-15, 2019 Clinician Partners Program

hosted by the Charles F. and Joanne Knight Alzheimer's Disease Research  
Center at Washington University School of Medicine in St. Louis

The Clinician Partners Program (CPP) is a 2.5-day “mini-residency” in dementia diagnosis and care. Sessions are facilitated by world-class dementia researchers and Washington University clinical faculty. This CME program is designed for clinicians (MD, DO, PA, FNP, advanced practice nurses) who see elderly patients in rural areas of Missouri or metro-adjacent Illinois.

The CPP program includes:

\*Didactic sessions on:

- Early Detection, Diagnostic Guidelines, Genetics, and Research
- Differential Diagnosis
- Driving & Dementia
- Sharing Diagnostic Information with Patients and Families
- Treating the AD Patient: Disclosure, Early Intervention, and Rx
- Stress, Safety, and Managing Challenging Behaviors
- Resources for Working with Caregivers
- Legal Issues in Dementia Care

\*Brain cutting and neuropathologic review

\*Case study session, networking and discussion

\*Observation of clinical assessments using Clinical Dementia Rating Scale and AD8

Attendance is FREE and clinician partners receive:

- 3-night paid hotel accommodations
- Reimbursement for travel
- Reimbursement for dinner, and other meals provided
- 17-20 hours of Continuing Medical Education (CME) credit
- Resource materials

**If you are interested in attending the 2019 session of the CPP, contact Jennifer Phillips at 314-286-2882 or [phillipsj@wustl.edu](mailto:phillipsj@wustl.edu)**

**Call or email today, as spaces are limited.**
