

**CHARLES F. AND JOANNE KNIGHT ALZHEIMER'S DISEASE RESEARCH CENTER**  
2012 Tuesday Conference Seminar Schedule  
East Pavilion Auditorium - BJH South, 1st Floor  
12:00 - 1:00 PM

Jan 3	East Pavilion	<b>Giving and Getting a Dementia Diagnosis: An Interaction Process Analysis of the Conversation</b> Brian Carpenter, PhD, Washington University	
Jan 10	East Pavilion	<b>Statistical Approaches to Evaluate Groupwise Resting-state fMRI Data</b> Gina D'Angelo, PhD, Washington University	
Jan 17	East Pavilion	<b>Role of apoE Isoforms in A<math>\beta</math> Metabolism</b> Philip Verghese, PhD (Holtzman lab), Washington University	
Jan 24	East Pavilion	<b>Retrieval Practice as a Mnemonic Enhancer: Improving Retention in Older Adults (and Everyone Else)</b> Roddy Roediger, PhD, Washington University	
Jan 31	East Pavilion	<b>Decision-making and Cognitive Control in Older Adults</b> Todd Braver, PhD, Washington University	
Feb 7	Wohl Auditorium	<b>Propagation of Protein Tau Protein Misfolding: Prion Mechanisms in Tauopathy</b> Marc I. Diamond, MD, Washington University	Note location change
Feb 14	East Pavilion	<b>Measuring and Enhancing Your Impact: Metrics, Tools &amp; Strategies for Investigators</b> Cathy C. Sarli, MLS, AHIP, and Natalie J. Selsor, MSW, Washington University	
Feb 21	East Pavilion	<b>Learn How Missouri is Fighting Alzheimer's: A Progress Report from the Missouri Alzheimer's State Plan Task Force</b> Carroll Rodriguez, Alzheimer's Association, St. Louis Chapter	
Feb 28	East Pavilion	<b>Changes in CSF Biomarkers Over Time: New Insights into AD Pathogenesis</b> Anne M. Fagan, PhD, Washington University	
March 6	East Pavilion	<b>TBA</b> Carlos Cruchaga, PhD, Washington University	
March 13	East Pavilion	<b>TBA</b> Cathy Roe, PhD, Washington University	
March 20	East Pavilion	<b>Statistically Rigorous Fine Mapping of Motor and Non-motor Effects of Deep Brain Stimulation in Parkinson Disease</b> Kevin J. Black, MD, Washington University	
March 27	East Pavilion	<b>Biology and Pathophysiology of the Amyloid Precursor Protein</b> Hui Zheng, PhD, Professor, Departments of Molecular & Cellular Biology and Neuroscience; Director, Huffington Center on Aging, Baylor College of Medicine	

## **CME Documentation Information:**

**SPONSORED BY:** This activity is being sponsored by Washington University School of Medicine, Continuing Medical Education.

**ACCREDITATION:** Washington University is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

**CREDIT:** Washington University designates this live educational activity for a maximum of 1 *AMA PRA Category 1 Credits™*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

**DISCLOSURE POLICY:** It is the policy of Washington University School of Medicine, Continuing Medical Education, to ensure balance, independence, objectivity and scientific rigor in all its educational activities. All faculty participating in this activity are expected to disclose to the audience any financial interest or other relationship he/she has with the manufacturer(s) of any commercial product(s) discussed in an educational presentation. All physicians' disclosures were reported and are indicated with their presentations. Speakers are also expected to openly disclose inclusion of discussion of any off-label, experimental, or investigational use of drugs or devices in their presentations.

Presentations are expected to be based on evidence that is accepted within the profession of medicine as adequate justification for their indication in the care of patients. All scientific research should conform to the generally accepted standards of experimental design, data collection and analysis.

These presentations are the views and experiences of the presenters. The presenters' views do not represent the policy or position of Washington University School of Medicine. Washington University School of Medicine, Continuing Medical Education is the sponsor for CME credits.
