

A. Presence or Absence of Dementia

_____ NO DEMENTIA

_____ UNCERTAIN DEMENTIA,

DAT OR PRODROMAL SYNDROMES

_____ Incipient dementia

_____ DAT

DAT WITH RELATED CONDITIONS

- Unusual features:

Relationship of condition to DAT

Prior With After No DAT

ProAphasia
PCD
FLD
Other

	Prior	With	After	No DAT
ProAphasia				
PCD				
FLD				
Other				

Specify: _____

- DAT with other potentially dementing illnesses (more than one may be present); believed to contribute importantly to dementia

NO **YES**

- _____ cerebrovascular disease _____
- _____ idiopathic parkinsonism _____
- _____ depression _____
- _____ other disorder(s); specify below _____

NON-DAT DEMENTIA

_____ Incipient dementia

DEMENTIA

Diagnosis

1^o 2^o

- Vascular dementia _____
- Dementia associated with _____
- Parkinson's Disease _____
- Diffuse Lewy Body Disease _____
- DAT (cannot be 1^o) _____
- Other: (Specify below) _____

B. List of Potentially Dementing Disorders (may be present in absence of Dementia.)

ACTIVE: Defined as a current episode (within past 3 months) or ongoing management problem with the potential to contribute to dementia at time of clinical assessment. (Mood disorder active within past year)

REMOTE: Defined as episodes occurring greater than three months ago or a management problem that either is resolved (no treatment needed) or stable and thus has little potential to contribute to dementia at time of clinical assessment.

Active

Remote

- _____ Parkinsonism _____
- _____ Idiopathic _____
- _____ Drug-induced _____
- _____ Diffuse Lewy body disease _____
- _____ Cerebrovascular disease _____
- _____ Mood disorder (any type) _____
- _____ Bereavement _____
- _____ Medication-induced _____
- cognitive dysfunction _____
- _____ Hypothyroidism _____
- _____ Hydrocephalus _____
- _____ B-12 deficiency _____
- _____ Alcoholism _____
- _____ Huntington's disease _____
- _____ Major head trauma _____
- _____ Seizure disorder _____
- _____ Progressive supranuclear palsy _____
- _____ Corticobasal ganglionic _____
- degeneration _____
- _____ Amnesic syndrome _____
- _____ Down syndrome _____
- _____ Global cerebral hypoperfusion _____
- _____ Other neurologic, psychiatric or _____
- medical diagnoses: _____

- List: 1. _____
2. _____
3. _____

!!! Alert for potentially transmissible disorders !!!

- Creutzfeldt-Jakob disease (CJD) or related prion disorder
- _____ clinically diagnosed
 - _____ possible (e.g., unusual ataxia, visuospatial deficits, myoclonus)
 - _____ Rapid course (not resulting in CJD diagnosis)
 - _____ Other potentially transmissible disorders
- Specify: _____

*** _____ Std. MAP Proc. or Special Proc. _____ Enrolled in Study: _____

_____ Not Eligible at T1 (Explain) _____

_____ Special or Expedited TR (Explain) _____

Thurs. Mtg. Disc. (Explain) _____
